

We celebrated 60 years advocating for mental health and uplifting our community. Thank you for being part of our journey and for your continued support. Together, we can make a lasting impact on the lives of those we serve. Sixty years ago, Family Service opened its doors to address local mental health service gaps in Waukesha County.

Our mission is to build stronger communities by empowering individuals and families through compassionate, life-changing mental health services. Some of our many fundraising focuses include providing sessions free of charge to clients, offering financial hardship discounts, ensuring students receive mental health counseling on-site at their schools, and providing specialized training for therapists who treat child victims of abuse, including EMDR.

In 2024, the state of Wisconsin launched a comprehensive mental health initiative aimed at expanding access to mental health services in schools and communities. This initiative includes increased funding for mental health programs, the introduction of mental health education in school curriculums, and the establishment of more community-based mental health centers. Our trusted mental health and abuse prevention services are needed now more than ever.

Highlights of 2024

In 2024, Family Service made significant strides in expanding its impact and enhancing its services. Our partnership with the School District of Waukesha flourished, thanks to a generous grant from the Women and Girls Fund of Waukesha County. This allowed us to provide vital mental health resources to families at two key schools, fostering stronger community connections and support networks.

A major milestone was achieved in June when Melissa Carini officially stepped into the role of Executive Director, bringing fresh leadership and vision to our organization.

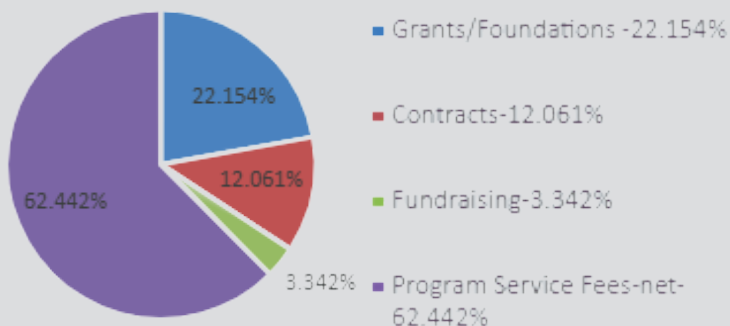

Leveraging ARPA funds, we successfully trained nine therapists in Motivational Interviewing, a powerful technique that has significantly improved child and parental engagement in mental health services. This training has empowered our clinical team to make a deeper impact on the lives of those we serve.

Additionally, our commitment to professional development remained unwavering. We bolstered our internal training program, offering competency-based training that equips new clinicians with the skills needed to deliver top-notch outpatient mental health services. In 2024, eight therapists, including four master's level interns from local schools, benefited from this robust training initiative.

Family Service's dedication to mental health and community well-being continues to shine brightly, making 2024 a year of growth, innovation, and strengthened support for those in need.

Family Service received a generous \$1,650 donation from Johnson Financial Group on behalf of Dockhounds Fan of the Game. These funds were used to support our mission.

Waukesha County residents turn to Family Service for counseling and support during challenging times. Your gift will help in so many ways— keeping children safe who have experienced trauma; teaching parents how to reduce conflict and remain child focused after a painful divorce; providing mental health counseling; and providing anger management courses to help break the cycle of abuse within families.
